

# MAINLAND SHETLAND - PAPA STOUR

## Community Information Drop-in Events

Scottish and Southern Electricity Networks (SSEN) Distribution is seeking your views on the replacement of the 11kV submarine electricity cable which runs between Melby on Mainland Shetland and Papa Stour.

We understand that the replacement of the cable following the recent fault is critical for a safe and reliable supply of electricity to our customers on Papa Stour.

If you would like to speak with the SSEN Subsea team, we will be available at the following information drop-in events on Mainland Shetland and Papa Stour.

**Tuesday 23rd April 1:00pm to 6:00pm**  
at Sandness Public Hall, Sandness, Shetland

**Wednesday 24th April 10:00am to 3:00pm**  
at Papa Stour School, Papa Stour, Shetland
